

# CB-S-P-170WW

Interface Block

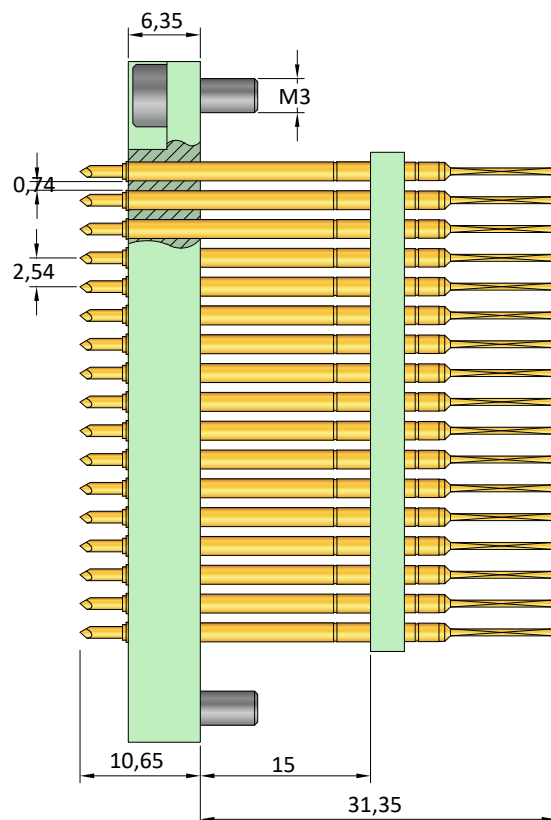

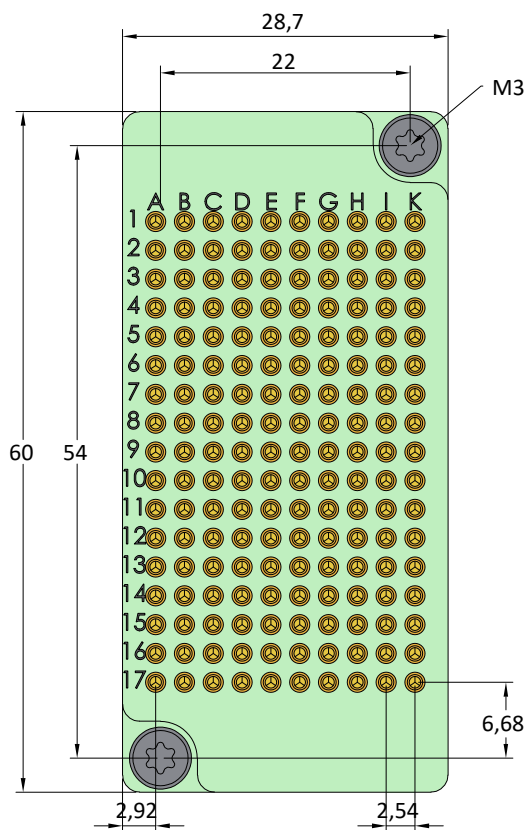

## Technical Data

|                              |                 |
|------------------------------|-----------------|
| Working distance:            | 15,1 ±0,5 mm    |
| Connection:                  | Wire-Wrap posts |
| Number of poles:             | 170             |
| Probes working stroke :      | 2,6 mm          |
| Air distance:                | 0,64 mm         |
| Spring force:                | 187 N           |
| Current rating:              | 4 A             |
| Typical contact resistance:  | <10 mΩ          |
| Operating temperature range: | -30° up to +80° |

|                           |                           |
|---------------------------|---------------------------|
| Components specification: | CP945T102B100G<br>CR945-W |
|---------------------------|---------------------------|

## Compatible with

|                           |               |
|---------------------------|---------------|
| Compatible mating part 1: | CB-S-F-170WW  |
| Compatible mating part 2: | CB-S-FT-170WW |

## Ordering example:

| Series     | Type de contact | A wrapper          |
|------------|-----------------|--------------------|
| CB-        | S-              | P-                 |
|            |                 | 170                |
|            |                 | WW                 |
| Block type |                 | Nombre de contacts |
| Signal     |                 |                    |
